**Subject:** Request for Rip Rap Cost for Kootenai Bridge

October 15, 2008

Commissioners Grandstaff, Chilcott, Thompson, Rokosch and Driscoll,

As county taxpayers in Ravalli County we are concerned about the management of our county road department. With this letter we are requesting complete information on the costs the county incurred in obtaining 860 cubic yards of rip rap for the Kootenai Bridge. This includes, but is not limited to, time cards, operating costs and all other associated costs. We are willing to pay for copying costs if that is an issue.

We expect this information to be provided in a timely manner. It should not be difficult to have it to us by Monday, October 20. We ask that we have two days to look at the information and then have an opportunity to meet with the commission no later than October 27.

Thank you. We look forward to meeting with you.

Sincerely,  
Bob Oset 363-4048  
Susan and Mark Behrman 363-2834  
Pat Tucker 363-7291  
Road Oversight Committee
